June 2010 Current News and Events

Business of the Month Can-Tico

TWO FAMILIES FROM DIFFERENT COUNTRIES WORKING TOGETHER AS ONE.

Can-Tico works with top Costa Rican craftsmen to make some of the world's finest hand-made furnishings affordable. Our products have graced many of the most prestigious homes in Costa Rica for years, and we are now committed to making them available to the rest of the world. We want to share with you the unique talents, designs and materials found only in this hidden corner of the world. This journey has begun with the opening of our first North American retail location in Sylvan Lake, Canada. Situated at the crossroads of two of Canada's most affluent cities, Sylvan draws tourists from around the province year-round and boasts a population of over 11,000.

There are several factors that set us apart from other quality furniture manufacturers. First, we are dedicated to using only 100% authentic materials in the construction of our products. You will not find pressed particle board or veneers in Can-Tico products. What you will find is the highest quality native hardwoods, rattans, ceramics and precious metals. Second, we believe in the fundamental importance of fairness and equity in every aspect of our business, from procurement through production all the way to the final sale to you the customer. We believe in building and supporting the local

economies of some of the poorest areas of Costa Rica and our committed to working in partnership with our local partners to improve the lives and well-being of these exceptional people. Lastly, we believe that furniture is an investment. Some of the most majestic hardwood trees must be sacrificed in order to make our products and as such, it is our responsibility to make sure that they are used to make products that will bring generations of value to their owners.

We invite you to contact us to hear more about our products and to experience the Can-Tico difference for yourself.
